5. D.: **Wait**, Click.

Of course <u>Daniel</u> is going to help his dog.

Do you think he's also curious to know what's happening?

What is <u>Daniel</u> telling <u>Click</u>, before he opens the door for him?

That's it. <u>Daniel</u> is telling <u>Click</u> to wait a little.

Is <u>Daniel</u> saying: *Wait, Click*?

<u>Listen.</u>

(**P3X:** *Wait, Click.*)

<u>What's Daniel saying?</u>

(**IRP**)

If you wanted a friend to wait for you, what would you say in English?

If your mother wanted you to wait for her, what would she say in English?

<u>Pretend you're Daniel. Model Daniel in the dialogue.</u>

What do you think will be outside when <u>Daniel</u> opens the door?

Why do you think <u>Click</u> wants <u>Daniel</u> to open the door?

Does anyone have an idea what's happening?

<u>Let's see.</u>
